

Our horizon of integrity

FIVE FUNDAMENTALS OF VOICES OF GAIA

OUR HORIZON OF INTEGRITY

- 01 Natural experience
- 02 Natural diversity
- 03 Natural beauty
- 04 Natural cooperation
- 05 Natural growth

These 5 fundamentals are grounding our orientation in how we want to seed, nurture and hold the Voices of Gaia collective initiative.

01 natural experience

The truth of experience gives our speakers authenticity that naturally speaks to us — pointing to what really matters.

We co-create opportunities of self-discovery to touch-base with our natural source of wisdom.

02 natural diversity

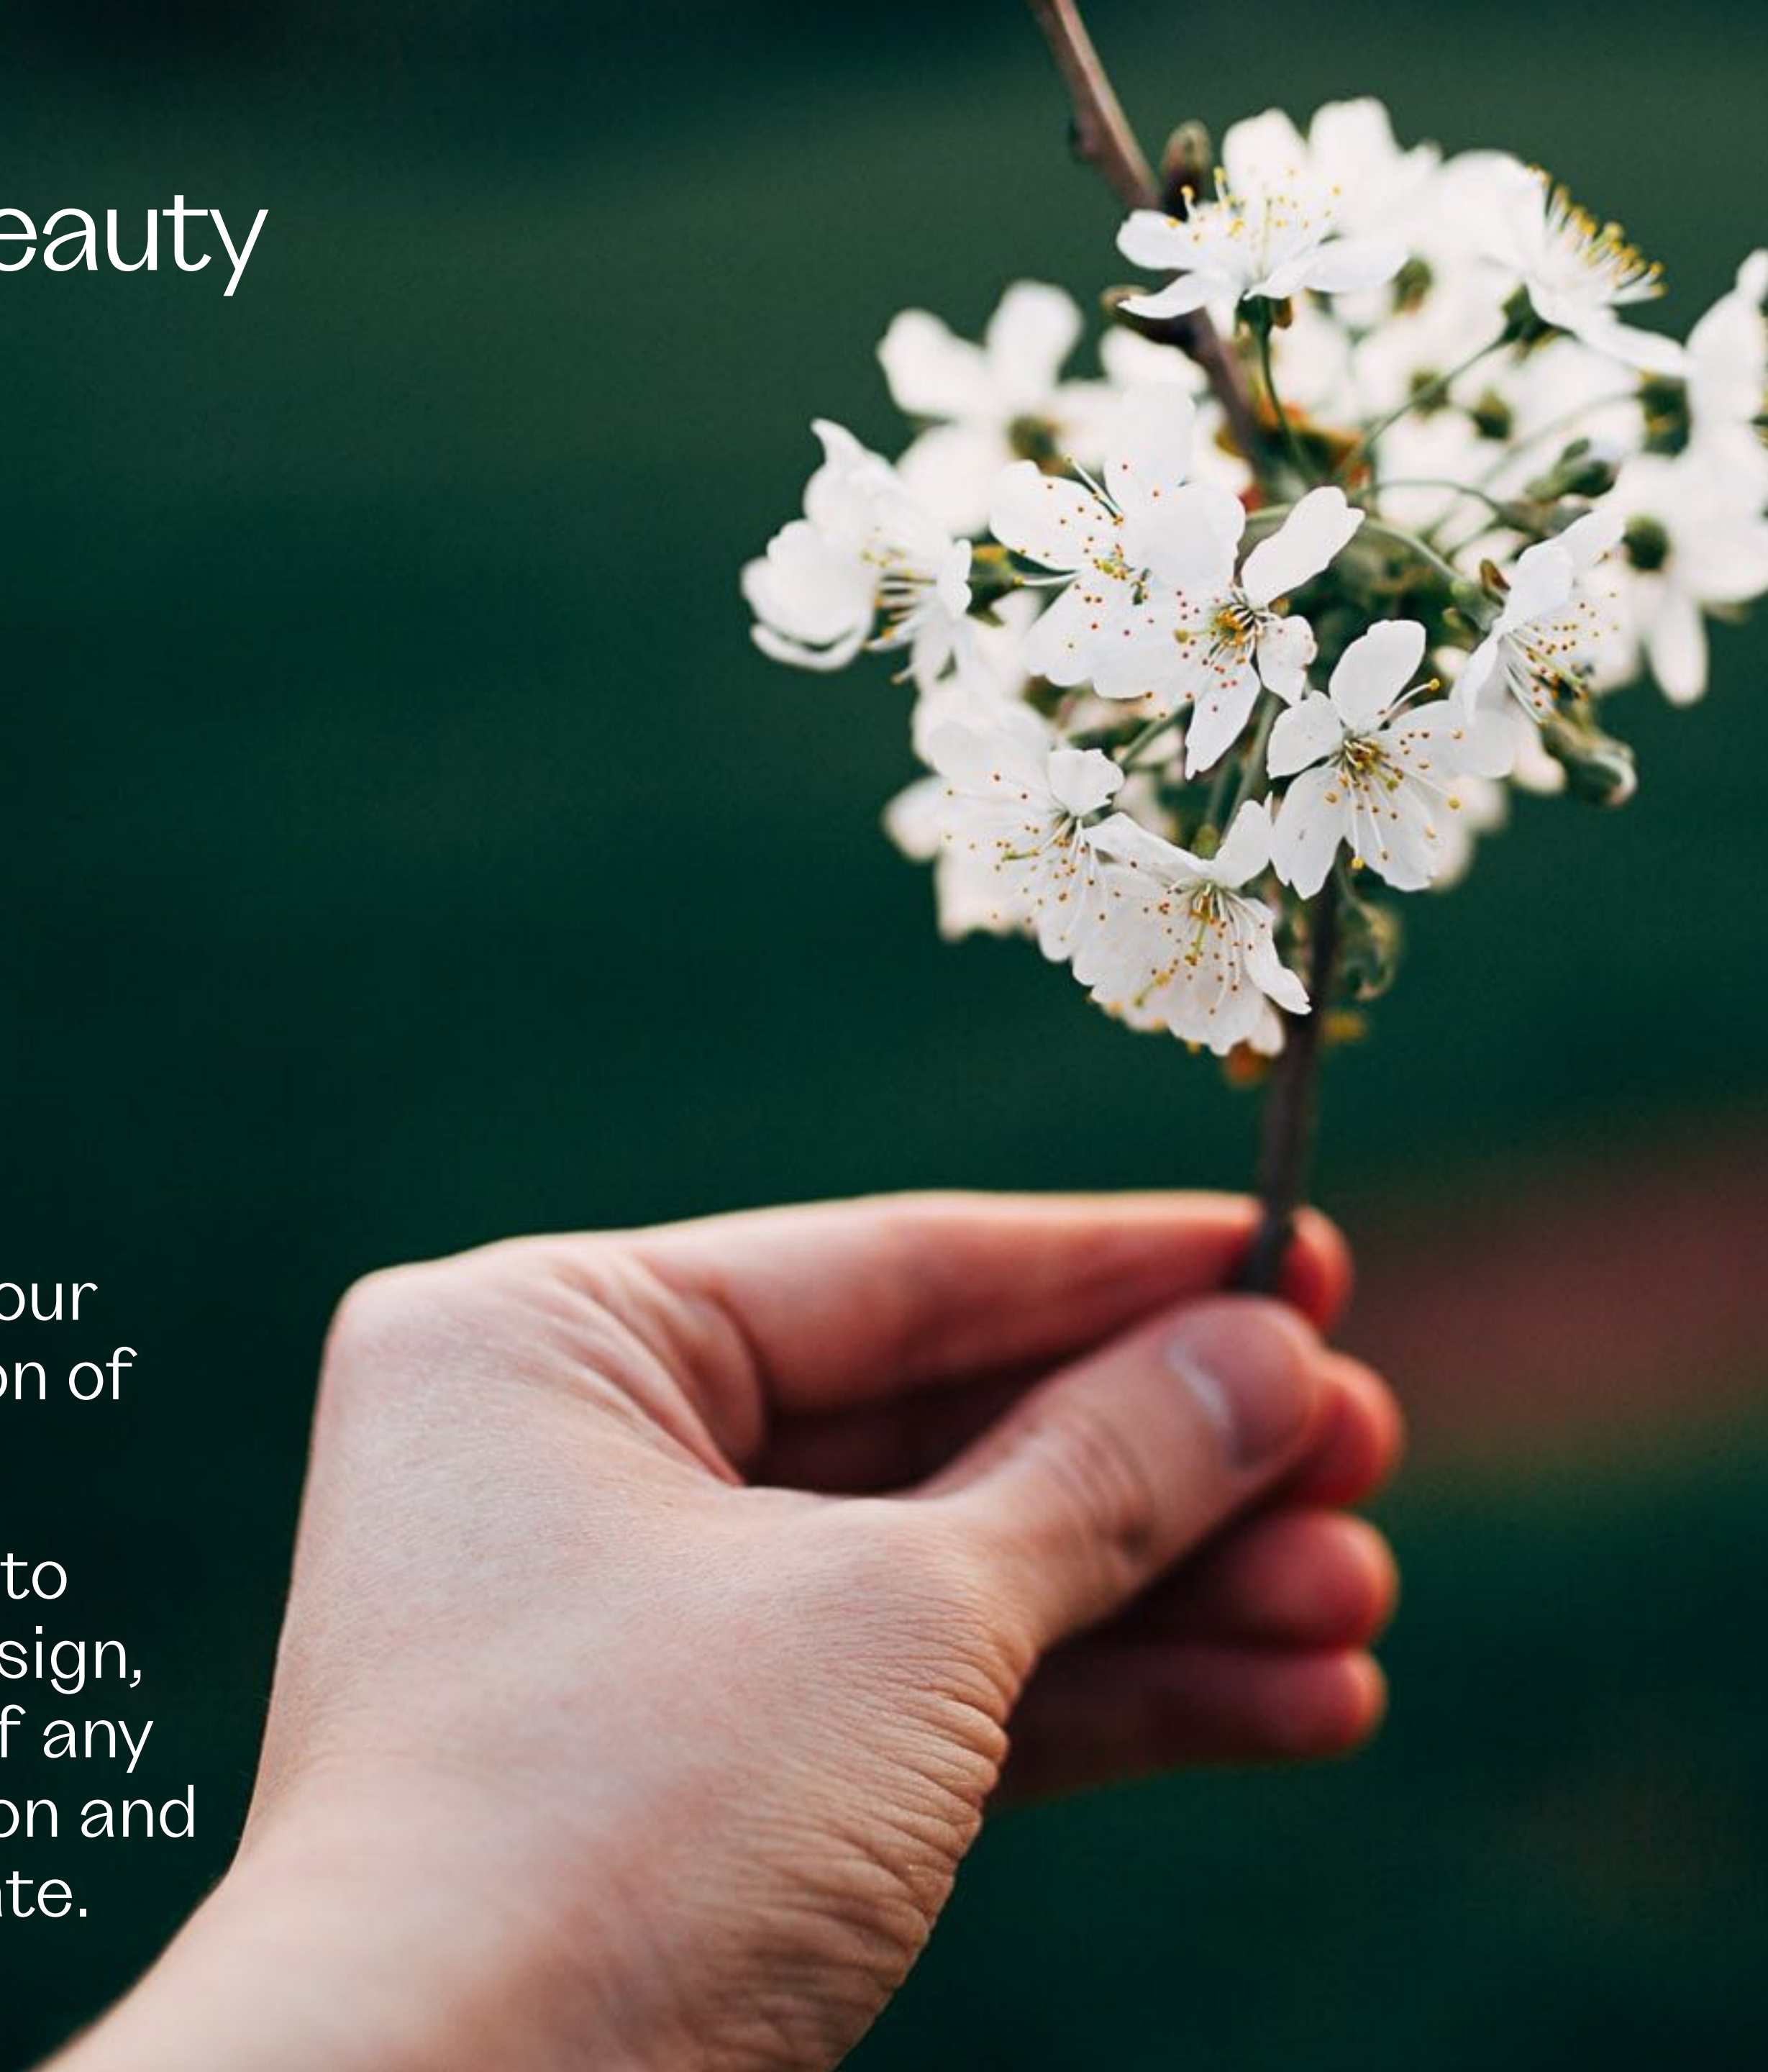

We want to honour the abundance of life and it's unfolding expression by offering a variety of

- authorship,
- approaches to study and exercise,
- media & communication,
- expression & art,
- events & opportunities of engagement.

03 natural beauty

The natural beauty of our world is a manifestation of love.

This is what we thrive to convey through the design, art and subtle purity of any content, communication and production we co-create.

04 natural cooperation

Like in the natural world we trust in the logic of global cooperation held by the principals of Gift ecology

- no buying, no selling, no (pay-)wall, but a gate where you are invited to multiple forms of contribution beside money like free time, life-experience, networks, heartfulness, mindfulness, wisdom, creativity.
- free contributions and free receiving; enhancing SelfResponsability, SelfEmporwerment
- no reward or expectation driven user-experience; enhancing selflessness
- encouraging inner trust in gratitude, generosity and altruism

05 natural growth

We consider ourselves as gardeners of Voices of Gaia which has it's own evolutionary purpose.

A humble and collaborative attitude, self-sustaining economy and open access for everyone are the roots of it's natural growth.
